Internationales

Homöopathisches Jahrbuch

Annales homoeopathicae

von

Dr. Alexander von Villers.

Volumen II.

Dresden 1894.

Verlag: Expedition des Homöopathischen Archives,

Dr. Alexander Villers.

Vorwort.

Der zweite Band des „Internationalen homöopathischen Jahrbuches“ tritt in anständigerem Gewande vor das homöopathische Publikum als der erste. Der Besserung in seiner äusseren Erscheinung entsprechend ist auch der Inhalt, den wir bieten, ein wesentlich besserer, verglichen mit dem, was der erste Band bringen konnte. Alle die Schwierigkeiten, welche der Zusammenstellung eines genauen internationalen Adressbuches entgegenstehen, haben sich auch bei der Zusammenstellung des vorliegenden Textes wieder gezeigt. Die Lässigkeit der Correspondenten und die mangelhafte Genauigkeit der gegebenen Auskünfte machten es unmöglich, mehr als etwa zwei Drittel der wirklich vorhandenen homöopathischen Adressen zusammenzustellen.

Ich weiss sehr wohl, dass es eine Menge Käufer dieses Buches geben wird, welche nur die Fehler sehen werden und die gethane Arbeit unterschätzen; aber ich kann mit Bestimmtheit versichern, dass das hier gebotene Adressenmaterial das grösste und genaueste ist, was augenblicklich vorliegt. Für die späteren Bände sind noch umfassendere Vorbereitungen getroffen, aber für jetzt muss sich der Leser mit dem begnügen, was unter den obwaltenden Umständen möglich war.

Die bibliographische Uebersicht, die ich im zweiten Theile dieses Bandes liefere, ist die letzte, welche ich herausgebe, da Dr. Cartier in Paris in seinem „Universal Homoeopathic Annual“ die bibliographische Uebersicht der homöopathischen Literatur von jetzt ab geben wird. Um aber alle Verwechs-

lungen mit diesem Werke unseres verdienstvollen Kollegen zu vermeiden, habe ich für mein Werk den deutschen Titel „Internationales homöopathisches Jahrbuch“ für alle Ausgaben beibehalten, obwohl der Text mit Hilfe der lateinischen Sprache zu einem international verständlichen gestaltet worden ist.

Ich bitte jeden Käufer meines Buches um seine Kritik und um seinen Rath, wie das vorliegende Werk — unsere erste internationale Veröffentlichung — so gestaltet werden könnte, dass es wirklich zu Ehren der Homöopathie und zur Förderung derselben diene.

Dr. **Alexander Villers.**

Preface.

The second volume of the 'International Homoeopathic Annual' makes its appearance before the homoeopathic public in a more becoming vestment than the first. To correspond with this amelioration in its exterior appearance, the contents are also essentially superior to those which the first volume could offer. All the difficulties which oppose the compilation of an exact international address-book have made themselves manifest in the compilation of the text in question. The laziness of the correspondents and the questionable accuracy of the information given made it impossible to collect more than two-thirds of the homoeopathic addresses extant.

I am well aware that there will be a large number of purchasers of this book, who will only notice the mistakes and undervalue the work accomplished; but I am able with confidence to assert that the address-material here presented is the most complete and exact that is at present to be obtained. For later volumes still more extensive preparations have been made, but, for the present, the reader can but be satisfied with what was possible of accomplishment under the prevailing circumstances.

The bibliographical summary which I supply in this volume is the last which I shall publish, as Dr. Cartier in Paris will

henceforth furnish the bibliographical review of homoeopathic literature in his 'Universal Homoeopathic Annual'. In order to avoid all confusion with this work of our praiseworthy colleague, I have retained the German title 'Internationales homöopathisches Jahrbuch' for all editions, although the text with the aid of the Latin language is internationally comprehensible.

I beg every purchaser of my book for his criticism and advice as to how the present work—our first international homoeopathic publication—can be so arranged that it may really serve as an honour to homoeopathy and towards the promotion thereof.

Dr. **Alexander Villers.**

Avant-propos.

Le second volume de l'Annuaire homéopathique international se présente sous un extérieur plus convenable à son public et offre outre cela un contenu essentiellement plus valable. Chaque collection d'adresses internationales produit une série de difficultés, dont j'ai senti tout le poids, en m'adressant aux adhérents de notre parti. L'indolence des correspondants et l'inexactitude des renseignements donnés, m'empêchent de publier plus de $^2/_3$ des adresses réellement existantes.

Je sais très-bien, qu'il y aura foule d'acquéreurs qui ne verront que les défauts de cette oeuvre et qui ne s'entendront pas à en apprécier le travail. Je puis affirmer que ce que nous offrous en adresses au public en est la collection la plus grande et la plus soignée. Pour les prochains volumes j'ai déjà commencé à préparer les matériaux sur un terrain plus étendu, mais momentanément je suis obligé de demander au lecteur, qu'il se contente de ce que je puis lui soumettre.

La bibliographie publiée dans la seconde partie de ce volume, cessera de paraître, Mr. le Dr. Cartier à Paris publiant à l'avenir une bibliographie homéopathique, intitulée: Universal homoeopathic annual. Pour éviter toute erreur je garde pour mon livre le titre allemand: „Internationales homöopathisches

Jahrbuch". Le livre restera international, malgré son titre allemand, à l'aide du latin, vraie langue cosmopolite du monde des lettrés.

Que chaque lecteur veuille me faire connaître son avis, pour que mon oeuvre — la première publication homéopathique internationale — serve à l'honneur et à le propagation de notre science.

Dr. **Alexander Villers.**
